Your Rescue Squad In Action

Last Thursday, September 30th, was the last class for seven students completing the Advanced First Aid classes taught by five instructors of the Appomattox County Rescue Squad. From left to right are George Allen of Pamplin, Sarah Vaughan and Bena House of Appomattox, Daulton Elder of Pamplin, Bill Stanley and Jean Pitsenberger of Appomattox and Wayne Reynolds of Spout Spring. Center front in the picture is Tye Beasley, son of Mr. and Mrs. Grover Beasley, Jr., both members of the Rescue Squad.

As a part of the final examination, students were required to administer simulated emergency First Aid. Lying on the floor (Beck Hudson, member of the Rescue Squad) was a victim of an automobile accident . . . injuries were head injuries, compound fractures of leg and arm, simple fracture of hand and left elbow, broken ribs, severe laceration of side of face and cut finger.

Instructors for the class were Bill Sperry, Pete Doss, Opal Paulette, Leota Vaughan and Grover Beasley, Jr.

HOWARD P. ANDERSON

Democratic Nominee

A PERSONAL MESSAGE TO THE VOTERS OF THE 18th SENATORIAL DISTRICT (Composed of the Counties of Appomattox, Buckingham, Charlotte, Halifax, Prince Edward, the major portion of Campbell and the City of South Boston):

I hope you will accept this as a personal appeal from me for your support in the upcoming State Senate Election for the 18th Senatorial District of Virginia.

Since there is only a limited time available for campaigning before the election on November 2nd, our district is one of the largest in the State in land area, I regret that it will not be possible for me to meet and talk with each of you personally before the election, though you can be sure that I will attempt to see as many of you as I can.

I want you to know that I have a total of 14 years experience as a member of the House of Delegates which I want to put to work for you in the Senate of Virginia. This experience, including service on eight committees as Courts of Justice, Counties, Cities and Towns, Agriculture, and study commissions on state affairs and vocational and technical schools (the forerunner of our community college system), has afforded me an excellent opportunity to gain an understanding of the varied and complex problems of our state government. There are no easy answers to the problems we face in this State and a thorough knowledge of state government is essential in attempting to work out solutions for the good of all our people.

I have always insisted upon economy in governmental operations and have been active in the adoption of strong highway safety measures. Of particular importance to this area of Virginia is the fact that I have waged a long battle against the tobacco tax and have attempted to have that tax reduced on a number of occasions.

During my years in public office I have attempted to represent the people of my district to the very best of my ability and pledge my continued efforts to do so if honored by you in election to the Senate. Your support on November 2 will be greatly appreciated.

Sincerely,

Howard P. Anderson

September, Secre- . . . met with two nat- . . . ural advisory . . . to consider cotton . . . programs for . . . the National Ad- . . . tures on Cotton and Feed Grains and Soybeans and the National Advisory Committee on Wheat, Feed Grain and Soybeans are composed of a representative cross-section of producers, farm groups and associations, the trade, and industry.

Some details of the 1972 set-aside program for feed grain are already clear, pointed out Mr. Alvis. Barley will be included in the 1972 program, Soybeans likely may be substituted for feed grains without loss of set-aside payments, and so may wheat.

"Although official notification cannot yet be sent, most farmers know what the feed grain base on their farm is and cotton producers have an idea of approximately what their farm cotton allotment acreage will be. Farmers also know their farm conserving bases as the acreage they must keep in conserving uses, in addition to set-aside acreage, if they participate in the programs," Mr. Alvis said.

Set-aside percentage and set-aside payment rates are the most eagerly-awaited details still to be announced for the feed grain and cotton programs, he said.

"In determining these, Secretary Hardin considers the need for increased farm income and a strong economy; probable demand, both in U.S. and overseas; the necessity of maintaining the nation's competitive position in farm exports; expected carryover stocks and their effect on farm prices; the long-term future of American agriculture; and many other factors," the Chairman said.

He commented that determination of set-aside acreage and set-aside payment rates necessarily includes many imponderables, citing the 1971 feed grain determinations which had to be made with no way of knowing how the new form of Southern leaf blight might affect the corn crop. "As it turned out, the blight was not a major problem this year and it looks like a record corn crop. Now, the Secretary of Agriculture must consider the effects of this record production as he develops the 1972 program," Mr. Alvis said.

Local farmers were assured by the ASCS official that as soon as the 1972 program details are received public announcement will be made, newsletters sent out, and the County ASCS Office will be ready to answer program questions.
